North Carolina October/November 2008

## Seeing Who You Really Are

**W**ho are you really? You are an individual with your own unique point of view. No one else is quite like you.

But there's another side to you which you may or may not know about. This is Who you really are. At the centre of yourself is a great treasure. Look steadily within and you will find utmost peace, unfading joy, eternal life.

In this workshop Richard will guide you through a variety of experiments that lead you to this Reality within you. You will literally SEE your True Self. Once you see Who you really are, you can go on seeing it anywhere, anytime. It will revolutionize your life, showering blessings upon you.

Richard first discovered his True Self when he attended a workshop with the English philosopher Douglas Harding in 1970. Since then he has devoted his life both to staying awake to his True Identity and to sharing Harding's experiments. He has two books published -- ***Seeing Who You Really Are*** and ***Open To The Source***.
